

FY2020

Application Periods for Public (Municipal and Metropolitan) Housing

Municipal Housing

Application Period	July/October/January
--------------------	----------------------

Those who had lived in the city for more than three months (three years for individual households) as of the application date.

The above application periods are subject to change.

Please check the application guideline, which is published before each application period, for the detail.

Distribution points of the application guideline will be listed on the Hachioji city official website and in the Koho Hachioji (issued bimonthly on 1 and 15).

Metropolitan Housing

Application Period	Residence Type
Beginning of June	Family/ Individual Young Family
Beginning of August	*Family (point assessed basis) Individual/ Silver Pia
Beginning of November	Family/ Individual Young Family
Beginning of February	*Family (point assessed basis) Individual/ Silver Pia

* Individual households are not allowed to apply for the family type of the point assessed basis.

This type is specifically for single parent households and those with seniors aged 60+, persons with mental and physical disabilities, two or more children and wheelchair users. Unlike the other types, rooms are not rent to lottery winners but to those who have higher priority according to individual household status described in an application and field surveys. Applicants must have lived in Tokyo for more than three years as of the application date (except for households with wheelchair users).

Victims of the 2011 Great East Japan Earthquake living temporarily in Hachioji

Application requirements may be alleviated. Please contact the Housing Policy Section for the details.

The application periods listed above are subject to change.
Please check the Koho Hachioji for the latest information.
