Consultation service

Our consultation service is to support senior citizens and their families as well as local citizens of all ages through providing information and service mediation.

Prevention of Abuse and Consumer Fraud

We are working to improve early detection of elderly abuse, prevent consumer fraud and enlighten the adult guardianship system.

Partnership Support for Local Organizations

We are working to build partnerships between local medical institutions, volunteer groups and other related organizations and to support the long-term care support specialists.

Healthy Lifestyle Support

We promote the preventive care for senior citizens to maintain their healthy independent lifestyle at home.

Any Concerns?

I'd like to know about the long-term care service.

I don't know how to take care of my elderly parents...

The elderly neighbor is always being yelled...

I've been forgetful lately...

My legs feel weak lately. I should do some exercise...

I don't have much opportunity to talk to other people...

I'm worried about the elderly neighbor living alone...

The person often visiting the neighbor might be a fraud...

I'm worried about my parents living apart.

Feel free to contact us!

About our consultation service

- It's free of charge.
- We accept telephone, Fax, letter and at home consultation.
- In case of emergency, the telephone consultation is available on Sundays and holidays and during the outside of the business hours.

About Senior Consultation Center

The senior consultation center is a nickname for the community support center defined in the long-term care insurance act. It provides information and support through consultation service in order for senior citizens to continue living at their own home without any major problems. Its major operators are social welfare corporations that are entrusted by the city.
